## P-Art-Y

### A party in contemporary art at Arte Fiera

*The third edition of the format launched by Gruppo Sangermano that links art, music and gastronomy, will take place from 31st January to 3rd February, in partnership with Arte Fiera. An exhibition will be held dedicated to the multifaceted artist Roberto Paolini, curated by Vittoria Coen, together with evenings animated by great protagonists of international music*

Bologna, January 29<sup>th</sup> 2019

Roberto Paolini and its light metals, iron masterpieces combined with stone or chain sections that give life to disused objects, adapting them to give an aspect sometimes human and sometimes animal, but which always refers to the ancient wisdom of the craftsmen who work materials from other times.

And then music, with the jazz quintet Nick the Nightfly and the musical event Kong, and a tribute to the food and wine excellences proposed by the Ristorazione Bolognese Group and by Laurent-Perrier Italia.

After two editions outside the fair, the format launched by Gruppo Sangermano di Bologna returns, creating a common thread between contemporary art, music and gastronomy. The exhibition event, this year in partnership with Arte Fiera, leaves the historic buildings of Bologna to enter directly into the BolognaFiere exhibition halls, which promotes the event dedicated to contemporary art. In fact, it will be hosted in Hall 32 from January 31st, during the preview of the show, until February 3<sup>rd</sup>.

The exhibition is curated by Vittoria Coen and realized in collaboration with Elena Paolini, daughter of the master and director of the Paolini Archive, with the coordination of Giuliana Picarelli. The exhibition consists of ten large works selected to create an ideal link with the industrial location consisting of the exhibition pavilions: sculptures dressed in light that animates inert shapes through their own or induced lighting, playing with spaces and volumes, with shiny and opaque. The exhibition is a tribute to a multifaceted artist who has been fully rediscovered with a series of recent initiatives, in Italy and abroad, with works that emphasize a soul linked to dexterity.

P-Art-Y brings the signature of MSG Studio, owned by the Sangermano Group. Ristorazione Bolognese and Laurent-perrier Italia are also part of the group and will manage the wine and food offer in the VIP lounge and in the Champagnerie of Arte Fiera. The event takes advantage of the Lamborghini Auto partnership.
