

Spada Partners renews its partnership with Arte Fiera Bologna and establishes the Spada Partners Award

Milan, xx January 2023 – Spada Partners, professional association based in Milan, Bologna and Rome, renews, for the second consecutive year, its partnership with **Arte Fiera Bologna**.

Moreover, the Firm, as part of the Corporate Social Responsibility - through **Roberto Spada**, Managing Partner and collector - confirms its commitment to support contemporary art by introducing a new dimension: the **Spada Partners Award**.

The recognition aims to support an artist, regardless of nationality, age or discipline, through the acquisition of a work. The awarded work will be selected thanks to its ability to provide a key to understanding the times we live in: "a work of art must speak to the viewer even before he knows the artist", says Roberto Spada. The winning work will be permanently exhibited in the Milan offices, where a unique collection of contemporary art is set up, blending perfectly with the environment and that can be admired both by collaborators and customers.

The Jury:

Roberto Spada, Managing Partner Spada Partners and collector

Chiara Massimello, Art Consultant

Rischa Paterlini, Independent curator

Luigi Cerutti, Chief Executive Officer Il Giornale dell'Arte

Spada Partners, which by history and attitude is today a point of reference in tax consultancy for enterprises and families, it deals with administrative, tax and corporate consultancy, corporate restructuring, assistance in Private Equity fund operations, as well as collaboration with Financial Advisors in acquisitions, sales, mergers and corporate finance transactions.

Spada Partners is a professional association based in Milan, Bologna and Rome, that works in the financial, tax and corporate advisory. The professionals are active both in the domestic and the international market providing their clients with guidance especially in tax planning and in managing complex turnaround operations, including the execution of the tax and financial due diligences.
